

**See what our
customers are saying:**

Project Solutions is...
"always responsive to the Government's requirements regardless of how much time or short notice was given in needing Inspectors".

Our employees are...
"always professional, knowledgeable and always willing to do whatever was required in getting the job done while representing the AF position/direction".

The Inspectors also provide "effective and useful feedback and information both when asked and when they felt that the input would be beneficial to the situation."

"Inspectors always provide input and recommendations in resolving issues as well as performing research when required".
